Hey everyone, I have a 1986.5 hardbody 3.0 V6 5spd 4x4 and ive been having some strange issues. It started with just a rough idle, but now itsToday, I decided to try and check the timing because I am certain it hasn't been checked ever in its 12 year run, until now! Here is a write-up on howAll Had some power issues as of late. After carrying out several tests it looks like the battery needs changing. Alternator seems to be sending power ok but even ...Looking for a smoother ride and improved fuel economy in your next car? Then you may want to consider a vehicle with a continuously variable transmission (CVT).
